

# NORTHERN <> COMFORT

STOP THE HEAT FROM FLYING OUT YOUR WINDOWS!!!

An typical installation of the **Magnetic Acrylic Storm Windows** by owner John Wilson

**Northern <> Comfort** is a new business in Terrace Bay owned by John Wilson. John has lived in Terrace Bay since 2007 and has 28 years in the electrical trade.

**Northern <> Comfort** builds and installs **Magnetic Acrylic Storm Windows**. These windows install directly inside existing interior window frames and drastically improve windows R Value and overall insulation with captured air.

**Magnetic Acrylic Storm Windows** are made of the same materials as aircraft windows. They are custom fit to your existing windows using a magnet around the frame and can be easily removed in the Spring and reattached in seconds.

- Reduce outside noise by 50%,
- Cut heating bills 20-30%, and
- All for a third the cost of new windows!

Do you want to reduce the noise coming through your windows?

Do you want to reduce your heating costs?

**Magnetic Acrylic Storm Windows** were featured at the 2009 Green Tradeshow!

"I have had them installed and you don't even notice them except for the reduction in noise and heating costs"  
- Terrace Bay Resident Valerie Wright
